“ I'm just finding out you are Gone! We looked and looked for you! The thought that you are gone and we can't even visit your grave is very hurtful! We been friends for so long! Since our MOJH days in Mount Olive NC! You were so Special to Us! So many memories! I will always love you and miss you! RIP Your Little Sis.💔

It's February 15th 2025, we just found out you are really gone. We been looking for you off and on over a year. I kept waiting for you to pop up or call, I told William something didn't feel right, you never stayed away from us this long, you always got in touch or popped up. My dearest friend we all had some good memories since school and always looked out for each other, last time I saw you in Walmart you were working 2jobs and gained some weight back, you looked good and you said all was well. You always ended our conversations in I love you and tell William I love him too and call you. I dont know what happened I just no you no longer on this earth, and our hearts are broken. I just hope you didn't need us and couldn't reach out. We love you Vernon I know you were tired, but you always kept pushing. REST NOW OUR DEAR FRIEND YOU WILL TRULY BE MISSED.
